| Pat Wearmouth    | Weyerhaeuser Co.       |                |      |

# MPBEP Workshop Purpose

The purpose of this workshop is to present the current status of all projects supported by the Mountain Pine Beetle Ecology Program (MPBEP) to the Activity Team and Partners of the Foothills Research Institute. The proceedings will provide the opportunity for the Activity Team to evaluate progress, assess new project options, and obtain feed back from researchers and resource management partners. Discussion and feedback will be used to confirm program direction and indentify future opportunities and management challenges.
