Public Open House April 19th, 1994

The scientists conducting research activities within Foothills Forest will be at the Forest Technology School in Hinton on April 19th to present posters describing their research. The purpose of the open house is to ensure that representatives of natural resource industries, governments, environmental organizations and academic institutions are aware of the ongoing Foothills Forest projects and the facilities established for training. It will also be an opportunity to review the scientific basis of the projects and the potential for collaborative work.

Displays will be set up in the gym of the Forest Technology School at 1176 Switzer Drive in Hinton and will be open to the public on April 19th, 1994 from 6:00 p.m. to 9:00 p.m. Interested individuals are invited to attend to meet the researchers and to learn more about Foothills Forest.
