CARIBOU WORKSHOP 2012

A conversation between managers and researchers about information needed to support caribou recovery in Alberta

FOOTHILLS RESEARCH INSTITUTE IS A LEADER IN DEVELOPING INNOVATIVE SCIENCE AND KNOWLEDGE FOR INTEGRATED RESOURCE MANAGEMENT ON THE FOREST LANDSCAPE THROUGH DIVERSE AND ACTIVELY ENGAGED PARTNERSHIPS.

WE WILL ACHIEVE OUR VISION BY:

- Building a community of leaders and active partners who are working in all our research areas about natural resource management.
- Identifying natural resource management needs at the landscape level that are common to our partners, recognizing the necessity of integrated resource management.
- Providing science-based facts and knowledge that is understandable and available to natural resource managers, policy makers, and the public.
- Rapidly disseminating our knowledge.

HINTON WOOD PRODUCTS (WEST FRASER MILLS LTD.) FOREST MANAGEMENT AREA

WILKINSVILLE WILDERNESS PARK

JASPER NATIONAL PARK

To help you understand, transfer technology and foster informed decision-making, Foothills Research Institute will focus on the following three areas:

THEME AREAS:

- LANDSCAPE DYNAMICS
- WILDLIFE
- WATERS
- FOREST COMMUNITIES
- DATA, INFORMATION, AND KNOWLEDGE MANAGEMENT
