

A photograph of a forest landscape. The foreground is a clearcut area with a mix of green grass and brown, charred wood debris. In the background, a dense forest of tall, thin evergreen trees stretches across the horizon under a clear sky. The text is overlaid on the left side of the image.

Post-Harvest Stand Development Conference

Doug Sklar

Alberta Sustainable Resource Development

Collaboration Prudent

- Essential to achieve economies of scale – reduce costs and improve results
- Co-operatives/consortiums seem to get optimum utility with scarce resources

Alternative Regeneration Standards

- **Designed to promote integration of:**
 - **Silviculture**
 - **Management Planning(G&Y,TSA)**
 - **Tree improvement**
- **Ongoing refinement/continuous improvement strategy**
 - **Plan-do-check-adjust**

Strategic Direction

- Focus regulatory effort on work of co-ops.
- Administratively feasible
- Facilitate, mediate, arbitrate.
