

Berland Smoky RAD Plan:

The Berland Smoky RAD Plan shows a projection of permanent access needs over the next 30 years. This collaborative partnership received a "Shared Footprints" Emerald Award in 2012. The FLMF developed Phase One of a landscape level reclamation plan in 2013.

- Advances Integrated Land Management in Alberta
- Projected to reduce future road footprint by 40% compared to "plan as you go" with one-off dispositions and approvals
 - Contributes to Grizzly Bear and Caribou Recovery Plans
- Tests targets and provides the basis to develop cumulative effects management plans
 - Currently approved under Information Letter 2013-01
