

flmf.foothillsri.ca

Who are we?

The FLMF is a self-funded forum made up of 15 resource companies (Energy and Forestry) & the AWN who proactively work together on the management of industrial footprint to mitigate the impact on other resource values.

Highlights:

- FLMF works in cooperation with the Alberta government in advancing Integrated Land Management (eg. Berland Smoky RAD Plan)
- Represents the interests of industry in Caribou Action and Range planning and grizzly bear recovery plans
- Maintains an up-to-date "as built" data set of industrial footprint
- Completed lineal inventories on nearly 1,000,000 hectares in the Grande Cache area
- Developed a landscape level reclamation plan in 2013
